An asphalt path leads from Kutina to the Moslavina wine road, to Mikša klet, where you will stop to taste 4 types of wine, after which you will continue your journey to Mramor hill, an oil and gas site. You will pass through Ciglenica and Mikleuška all the way to the second, gravel section, which leads to a forest path next to the quarry, Lake Mikleuška and to Humka - the highest peak of Moslavačka gora, where you will have the opportunity to roll up your sleeves and grill sausages.

The entire ascent to Humka follows a stream with numerous small waterfalls which create a beautiful experience complemented by wildlife. Humka is followed by a descent down the beautiful landscape of Moslavačka gora. The descent passes the turn for Bela crkva, a Pauline monastery founded in the second half of the 13th century, the chapel of St. George the Martyr, through the villages of Katoličke Čaire, Kutinska Slatina, near the turnoff for Romić klet, where you'll get to taste 4 varieties of wine, followed by a return to Kutina.
