We take you on a walking tour from the heart of Kutina, Dr. Franjo Tuđman Square, where you will get an introduction to this unique city with a hot drink. We continue the tour in the direction of the Museum of Moslavina in Kutina, a rich gallery, cultural, historical, archeological and ethnographic exhibition, as an excellent overture to Crkvena Street, where Moslavina's famous porches are located. We combine a touch of tradition and the warmth of a home with one of the most beautiful Baroque churches, the Church of St. Mary of the Snow, followed by a tour of the Turski stol educational trail.

Turski stol is a wonderful opportunity to breathe life into your lungs in a beautiful forest with ten instructive information points. It is an area carefully designed and created for a vacation within reach of the city center. After leaving the forest, we take you to a traditional lunch in Moslavačka hiža, followed by a walk to 'Gola Maja' where you will hear an interesting story about Auschovo. And to complete the experience of the city of Kutina and Moslavina, we end our route in Vinski dvor, where you will taste 4 types of wine from the Moslavina region.
